

College Space Plan Submitted In Legislature

LANSING (AP) — A resolution required by practicality, not legality, was introduced in the Senate Tuesday to give legislative approval to \$38.6 million in self-liquidating building projects at seven state colleges and universities.

Atty. Gen. Frank Kelley ruled earlier this year that legislative approval is not needed by the autonomous school governing boards for self-liquidating projects—those whose cost is paid from revenue they generate.

But Sen. Garland Lane, D-Flint, Senate Appropriation Committee chairman and introducer of the resolution, said bond companies will not purchase revenue bonds issued for the projects without legislative approval of them.

Most of the projects are for student housing.

Controversy over the self-liquidating projects had been generated in the past when schools later asked for state money to pay utility costs at the buildings.

The resolution directed that all operating costs of the projects, including utilities and depreciation, be paid out of revenues and fees received from project operations.

The projects include:

University of Michigan — \$6.4 million dormitory, \$8.6 million dormitory, \$5 million basketball pavilion.

Grand Valley — \$1 million dormitory, \$750,000 kitchen and dining facility.

Michigan Tech. — \$1.64 million dormitory, \$670,000 Wadsworth Hall dormitory addition, \$100,000 Houghton Hall kitchen remodeling, \$125,000 ski facility, \$300,000 So campus dormitory.

Central Michigan — \$3.08 million dormitories; \$633,600 married student housing, \$500,000 land acquisition.

Eastern Michigan — \$595,500 land acquisition.

Northern Michigan — \$6 million dormitories, \$1.5 million addition to University Center, \$250,000 acquisition of Northland Hotel property, \$137,000 land acquisition.

Western Michigan — \$1.25 million married student housing.

Red China Still Shells Quemoy

TAIPEI, Formosa (AP) — Whatever attention Communist China is paying its other frontiers, it is not forgetting Quemoy, the Nationalist island just off the Chinese mainland.

Peking's forces ordinarily bombard the island on odd-numbered days and refrain from shelling it on even-numbered days, in accord with an announced pattern. But over the years there have been nearly 500 lapses from shelling on odd-numbered days.

The Communists have made no new attempt to crush Quemoy since their massive effort in the summer of 1958.

But there have been some flareups, including massive bombardments which marked President Dwight D. Eisenhower's visit to Formosa in June 1960.

Since the big eruption in 1958, Communist shelling of Quemoy has had two main objectives—harassment and propaganda.

More than half the shells fired carry only enough explosives to burst them and scatter leaflets.

In the first four months of this year the Communists, by Nationalist count, have fired an average of 666 shells a month at Quemoy and its satellite islands.

Upward of 70,000 troops garrison the Quemoy Islands, which have a total area of about 57 square miles and a civilian population of about 50,000.

Republicans Fail To Make Gains In Mississippi

JACKSON, Miss. (AP)—Democratic candidates smashed the Mississippi Republican party's first efforts to win voters in municipal primaries and today turned toward completing their victory in the general election.

The GOP staged its first primaries in three cities Tuesday, but its candidates drew little more than token votes. Unopposed Republicans in 13 other municipalities will join GOP primary winners in facing Democratic in the general election June 8.

Republicans had primary elections for mayor in Hattiesburg and Laurel and for city council posts in Pascagoula. In each case, the Democrats outpolled the Republicans by 9-1 margins.

Landings Boost U.S. Viet Nam Army To 46,500

SAIGON, South Viet Nam (AP) — Nearly 1,000 U.S. Army paratroopers and another combat battalion of 1,400 U.S. Marines landed in South Viet Nam today.

The paratroopers are members of the 173rd Airborne Brigade who came by boat from Okinawa to join about 2,000 members of the brigade already in Viet Nam. A U.S. spokesman said they would help defend American installations at the Bien Hoa air base 20 miles north of Saigon.

The Marines landed at Chu Lai, 52 miles southeast of the strategic U.S.-Vietnamese air base at Da Nang. They boosted to 14,000 the force of Leathernecks thrown into the war against the Communist Viet Cong.

The Marine landing lacked the usual fanfare of pretty girls with flowers and official welcoming parties. A spokesman called it a "routine administrative affair."

The new arrivals raised the total U.S. military force in Viet Nam to about 46,500 men.

The paratroopers included an artillery battalion which its commander, Lt. Col. Lee E. Surut, 40, of New York City, said would be the Army's "largest single concentration of firepower in the country." He said it is the first Army artillery sent to Viet Nam.

Other men of the brigade who arrived last week already have started some patrol activity in the vicinity of the Bien Hoa base but have not pushed out

into the countryside. No contact with the Viet Cong has been reported.

About 5,000 Marines are now concentrated at Chu Lai, U.S. Seabees are to build an 8,000-foot jet airstrip there for two Marine attack squadrons that will give added air muscle in central Viet Nam.

Baby Delivered On Patrol Boat; Coast Guard Aids

ST. IGNACE (AP) — U.S. Coast Guard personnel from Mackinac Island were credited today with assisting at the birth of a child on a 36-foot patrol boat in the Straits of Mackinac.

The Coast Guard was summoned Saturday night by Dr. Joseph A. Solomon, island physician, who reported Mrs. Duncan Graham of St. Ignace had entered labor while visiting her parents and required immediate removal to the Straits Hospital here.

The patrol boat carrying the doctor and mother-to-be left the island in heavy fog. It was midway into its six-mile trip when Dr. Solomon, aided by crewman Jerome L. Pie, delivered Mrs. Graham's daughter. Mother and child were brought to the hospital by ambulance after the boat docked.

Roadside Sign Removal Struck Down By Court

Captain Tells Of Factors In Ship Collision

SAULT STE. MARIE (AP)—The captain of the Norwegian freighter Topdalsfjord charged at a Coast Guard hearing Tuesday that the Cedarville made a drastic turn, which he termed "poor seamanship," before the fatal collision last Friday.

Six men were killed and four are missing and presumed dead in the fog-shrouded mishap.

Divers searching the sunken Cedarville today recovered the body of Frank Donald Lamp, 46, the ship's chief engineer. Lamp, of Rogers City, leaves his widow, Alice, and two sons aged 14 and 12.

Capt. Rasmus Hasland, 55, told the Coast Guard Board of Inquiry he was on the right wing of the Topdalsfjord's bridge when he saw the Cedarville looming up from the right. He said the ship's radar earlier showed the Cedarville far to the right.

"I never expected such a drastic move to turn a ship 90 degrees in poor visibility, that's poor seamanship," Hasland said.

Hasland said he heard a "long screaming blast" from the Cedarville's whistle immediately prior to the collision.

He said he ordered his engines in reverse at that moment and the ship was barely underway at the time of impact.

Earlier today, divers brought up the bodies of two more victims from the Cedarville, which lies some 80-90 feet beneath the surface.

The bodies of Arthur J. Fuhrman, 29, a watchman, and Wilbert W. Bredow, 49, a steward, both from Rogers City, were found still clad in foul weather gear and life jackets.

Both leave wives and two children.

The body of William B. Assam, 38, a wheelman from Rogers City was found Monday wedged in a doorway aboard the Cedarville.

Captain Willis Bruso, the chairman of the Board of Inquiry, said the hearing would continue at St. Ignace today. Officers and crewmen of the Cedarville, including Capt. Martin Jeppich, were scheduled to testify.

Death Claims Mr. Korkoshik

William Michael Korkoshik of Gladstone Rte. 1 died at 9:15 a.m. today in St. Francis Hospital, where he had been a patient for the past 21 days. He was 65 years old.

Born in Russia on March 22, 1900, he had lived in this community for many years. His home was at Groos. He retired on April 1 this year from employment with the Mead Corp.'s Escanaba Division, where he was a beater engineer for 35 years.

Surviving are his wife, the former Ann LaBant, a daughter, Mrs. Robert (Dolores) Woelk of Alpena, four grandsons; and a brother, Andrew, in Europe.

He was a member of St. Stephen's Episcopal Church, Independent Order of Odd Fellows, Delta Lodge 195, F. & A. M., and the Supervisors Club of the Paper Mill.

The body was taken to the Anderson Funeral Home. Arrangements for the funeral service were to be completed later today.

Evidence is mounting that some meteorites come from the moon, scientists report.

FALSE TEETH That Loosen Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline (non-acid) powder, on your plates. Hold false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor breath". Get FASTEETH at drug counters everywhere.

Smelt Runs In Area Are Over

Most of the smelt runs are over in Delta County. Just a few smelt are showing up in the streams, the Conservation Department reports.

In the Escanaba and Gladstone areas fishermen are still catching some nice perch at Masonville although fishing has slowed up a lot since last week. Best fishing is early morning hours with minnows and worms for bait. Water too high for trout fishing in the entire area due to rains.

In the Ensign and Nahma areas trout fishing has been good on Camp Seven Lake with many limits being taken on flies, worms, and spinning gear. Also fair catches reported on Square Lake and Carr Ponds, fishing with worms.

Suckers are now running in most streams in this area with best runs showing up on Martin Creek and Big River.

Rain in this area has caused most streams to be over their banks.

In the Chatham, Trenary and Munising areas the Rock River is producing nice catches of rainbow on spawn streamer flies with best results at day break and early evening. Some rainbow are being taken on the Laughing Whitefish River north of M-28 and in rapids area at Deerton. The water generally is too high for brook trout fishing although a few were taken at the mouth of Slapneck Creek. Nice catches of rainbow have been taken in Lake Superior and at the mouth of the Mosquito and Miners rivers with spawn bags and spinning lures.

Walleye Project Eggs Transferred From Thompson

Transfer of walleye eggs from Thompson Fish Hatchery to the Operation Bootstrap walleye rearing canal at Garth Point was completed early this afternoon by Conservation Dept. and hatchery personnel.

According to fish biologist Clifford Long of the District Conservation Dept. at Escanaba, more than 15 quarts of eggs were placed in the canal on specially built trays.

The eggs will be allowed to hatch in the canal. The young walleyes will be kept in the canal until they grow to between one and two inches long before they are released into the bay.

Operation Bootstrap members completed work on the canal this week. Dikes and screens were installed at both ends of the canal. A pump which will keep fresh water moving through the canal also has been installed.

Bootstrap members hope the project will bolster the walleye population in the bay and improve fishing in the area.

Proposed City Tax Rate Same For New Budget

The tentative budget for the City of Escanaba for the year ahead is the same in the amount of the proposed tax rate, almost the same in total amount, and yet it is substantially different in the character of some of its capital improvement programs.

Escanaba's new fiscal year will begin July 1.

The tentative budget was prepared by City Manager George Harvey and submitted to the City Council.

The Council has set the date of May 20 at 8 p. m. in the City Hall for public hearing of the budget. The meeting is a regular Council session.

Copies of the tentative budget have been placed for examination by the public in the three Escanaba banks and in Carnegie Public Library. A copy is also available for perusal at the City Hall.

Wage Boost 2%

City Manager Harvey reported the 1965-66 total budget is \$3,025,459, of which \$1,354,691 is in general fund and \$1,670,768 is the utilities budget.

"The budget calls for the continued fine performance of municipal activities, finances the capital improvement program in full, and does not require any new forms of taxation or increased charges," the city manager advised the Council.

"The proposed general fund budget of \$1,354,691 provides for the financing of a capital improvement program in the amount of \$291,240, of which \$153,550 is the city's share," Manager Harvey said.

"The major item of cost in this program is the improvement of Lake Shore Drive from Sylvan Point to 14th Ave. S."

"Regular merit increases in accordance with the adopted compensation plan, and a wage increase of two per cent are contained in the operating budget."

The city manager described the limited funds available to finance municipal government and said it was necessary to eliminate "a number of highly desirable programs and facilities which would be included in the budget if more adequate financing were available."

Revenue Sources

Among items for which funds were not available were improvements at the municipal dock and at the yacht harbor, and the airport terminal project and improvements at the airport.

Escanaba's sources of revenue include a city tax, whose rate of \$14.50 per \$1,000 assessed valuation will remain unchanged in the year ahead, according to the tentative budget. The total assessed valuation of the city is \$27,885,640 and the levy will be \$404,341—a few hundred dollars less than last year.

From other agency sources—intangibles tax, sales tax, liquor licenses, motor vehicle tax and others—the city will gain an estimated \$311,500 for its budget.

Transferred as surplus from the electric utility will be an estimated \$50,000 in the year ahead, a gain of \$17,000 over last year.

Property owners who will be assessed to provide funds for their share of the capital improvements program are expected to contribute a total of \$108,690—about \$41,000 more than the current budget. Alley and street paving, water and sewer extensions are planned.

Abrasives

Diamonds are the hardest of all abrasives. Small or imperfect diamonds are crushed and the abrasive powder produced is graded and used in polishing and grinding operations.

Finlan Joins Gwinn Schools

William J. Finlan, son of Mr. and Mrs. Patrick Finlan of Chemical Location, Gladstone, and teacher at Escanaba Area High School for the past five years has resigned to accept the directorship of information services for the Gwinn Public Schools.

The position entails handling the high school newspaper and yearbook, newsletters for schools in the system and public relations, and serving as an administrative assistant to the superintendent.

Finlan teaches English 9 and journalism at Escanaba High and advises the school newspaper staff. He is a member of the Michigan Interscholastic Press Association, the Journalism Education Association, the Michigan Education Association, and is chairman for the Upper Peninsula Advisers Association.

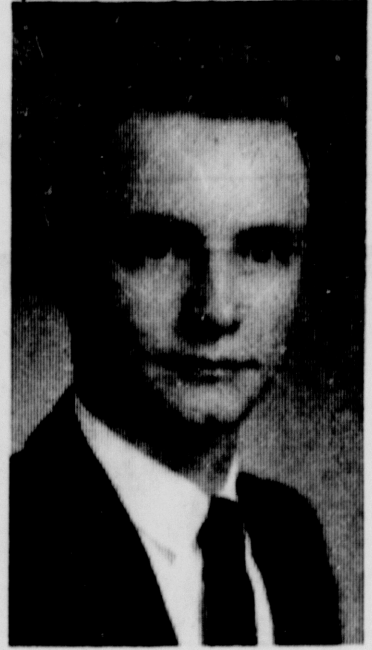

After being graduated from Octon Falls High School in 1953 Finlan spent two years in the Army, followed by four years at Wisconsin State University at River Falls, where he received his degree. He has been doing graduate work toward a master's degree in journalism education at the University of Michigan.

Before reporting for duty at Gwinn Aug. 23, he will conduct a workshop for high school newspaper staffers at Northern Michigan University.

Except for one summer studying under a fellowship from the Wall Street Journal, Finlan has been a vacation replacement worker for the Escanaba Daily Press in the news and advertising departments.

Hunters' Friend

The State Conservation Department is the best friend of the outdoor sportsman in Michigan and it is proving it again by some statesmanship prompted by a law proposed in Congress.

Senate Bill 1592, the so-called Dodd Bill, would wipe out all mail order sales of sporting firearms and restrict their over-the-counter purchase. It would prevent all persons under the age of 18 from buying any type of firearm.

It would give the Secretary of the Treasury a free hand to prescribe regulations governing the sale, shipment, transportation and purchase of firearms.

The proposed legislation is proposed by anti-firearms factions who want to keep weapons out of the hands of criminal and incompetent users. The legislation has, of course, been prompted in part by the assassination of President Kennedy by a former serviceman with a mail order rifle equipped with a scope.

The assassination gives the proposed legislation, or any prohibition of this kind, a much better chance for passage than it would if not linked to such a great crime.

The country's leaders of conservation and sport are opposed to Senate Bill 1592 and none of them more so than Director Ralph MacMullen of the Michigan Department of Conservation. "We're all for promoting proper use of firearms," says MacMullen "but this bill is a ridiculous, helter-skelter approach to the problem. It proposes to cut off the noses of many to spite the faces of a few without guaranteeing to solve anything. This is everybody-be-damned logic and we don't buy it."

The legislation will appeal most to those who know least about the criminal use of firearms. It won't set up even a minor impediment to the acquisition of guns by criminals. They needn't buy them from legitimate channels which would be controlled by the legislation; they can steal them, and who ever heard of a gunman registering his gun in the system that is supposed to control illegal ownership?

The mail order gun ban would only work a hardship on the rural hunter who lives a long way from the sporting goods store. The age limit would deny a wholesome sport to youths who have never done anything wrong. In general the legislation would unfairly restrict the sportsman without impeding the criminal.

The proposed law is as silly as a prohibition on the purchase of automobiles except under permit by the Secretary of the Treasury, because otherwise people might use them to haul a six pack or give grandma the seat without the seat belt.

America's Health

To listen to some people tell it, America in mid-20th century is in a pretty bad way.

The stock in trade of so-called "sick" comedians is defiance of taboos and customs and stark exposure of Everyman. American-style, as prejudiced, hypocritical and neurotic.

In art, the avant-garde, which has always disdained popular taste, has mockingly elevated comic strip and advertising art to museum level. Novelists and playwrights find little in contemporary life that is not obscene and contemptible.

Some Peace Corps volunteers, we are now told, face a "re-entry" problem on returning home after their tours of duty in under-developed lands. They see American ways and American values as crass and shallow and commercialized. They feel like aliens in a society where everything, beneath the glittering chrome, is cheap and phony.

The cry is for "values" and meaningfulness and "causes," and anyone who does not howl and protest and reject is a pitiful conformist.

Like all extremists, the modern philosophy of discontent serves a purpose if it reminds us of certain basic truths.

In cultural matters, there is more mass participation and appreciation of art and music and literature than ever in history. Not everything outside exhibition halls and academic cloisters is entirely worthless; not everything inside is good.

And those few Peace Corps volunteers who find themselves estranged from the rest of us should remember that it was their country which gave them the opportunity to put their ideals into practice in the first place.

Individual freedom, the greatest ideal of all and from which all other values stem, is still a vital and enlarming force in America. The protesters themselves are the best evidence of that.

The Doctor Says:

Drink Milk Happily

By Dr. Wayne G. Brandstadt

Q — My husband is 43. Recently he quit drinking coffee for milk. Friends told him that older people can drink too much milk and that it causes hardening of the arteries. Is this true?

A — Although it is now known that cholesterol and related components of the so-called saturated fats and not calcium are responsible for hardening of the arteries, baseless rumors about the harmfulness of milk persist. The average adult should get about one gram of calcium daily. Milk, cheese and the leafy vegetables are the chief sources of this calcium. Because calcium is poorly absorbed from the digestive tract, it is necessary to take more than the minimum requirement every day. Unless a person is allergic to milk, he should drink a pint a day and twice this amount would not harm him.

Q — Would it be safe for me to have eyebrows tattooed on? I'm tired of using an eyebrow pencil.

A — There is always risk of infection and of a severe allergic reaction after tattooing. Q — My teen-age daughter

has a large, noticeable blackhead inside her ear. Is there any way to get rid of it?

A — There is no satisfactory way to get rid of a large blackhead in a location where the skin is tight. Since the victim is a girl, why not cover her ears with her hair?

Q — When I have a difficult stool it is followed by bleeding. Is this in any way related to cancer?

A — The most likely cause of your trouble is piles, but a fissure or crack in the skin or mucous membrane at the outlet may be the cause. Cancer of the rectum is certainly a possibility. Your doctor can easily determine the cause.

Q — I am 60 and feel fine. Can a doctor discover a prostatic cancer even though I don't have any symptoms of prostatic trouble?

A — If you have a cancer of the prostate that is just starting, it will cause no symptoms, but it can be felt by the doctor. Prompt removal of an early prostatic cancer followed by appropriate X-ray and hormonal treatment gives the best chance for cure.

Triumph Over Troubles . . .

New Doors Open On Long History In Hermansville

As early as 1882 a Methodist Sunday School was conducted in Hermansville. Some of the active workers in the religious education were Mrs. Edwin P. Radford, Mrs. John McIlroy, Mrs. David Downey and Mrs. August Ebert.

Services were held in what was then the local school house, later the theater. Mrs. Robert C. Watson, mother of the late David Downey, got a minister from the Presbyterian Church of Gladstone to preach occasionally. Rev. MacDonald, a Methodist minister who hailed from Canada, began preaching in 1887 in the schoolhouse, being sent from the Methodist Conference.

Rev. Gigg, who followed him, was so well liked by the boys of the community that they insisted upon his teaching in the school in addition to preaching. Rev. Harry Gillingham was then sent as a missionary Feb. 26, 1891, with headquarters in Hermansville. He made regular visits to the Hermansville Indian Mission at Hannahville, south of Wilson in addition to his charge in Hermansville.

By 1893 Spalding was growing into a thriving lumbering town and Rev. Edward Bickford was sent to the Spalding-Powers-Hermansville charge, living in Powers.

The first Hermansville church organization was Presbyterian, but there were not many Presbyterians, and the church did not prosper. The village had Congregationalists, Baptists, Episcopalians, Lutherans and Methodists and each group wanted a church of its own belief. There was also some favor for a Union Church.

Senator Counsels

Senator Philetus Sawyer of Wisconsin happened to be in Hermansville at this time, a Congregationalist who disapproved of a Union Church for the reason that it would be isolated from other denominations and not have the backing of any. He said "What is everybody's church is nobody's church." The Senator urged the people to choose a denomination that could be depended upon to send a pastor regularly and that would minimize denominational differences. The people decided upon a Union Methodist Episcopal Church, known at present as the First Methodist Church of Hermansville.

Money was raised by various methods to free the church of debt. At the suggestion of A. H. Hooper, the local agent for the Chicago & North Western Railway, a chain letter was sent to friends of the parishioners. It was signed by Mrs. A. H. Hooper, Dr. G. W. Earle and Edwin P. Radford. The chain broke at the 527th link, netting the church only \$52.70.

Additional funds, however, were raised by the community, and the church was freed of debt to the Methodist Episcopal Conference in the fall of 1895. Dr. Robert Kirby was the pastor, having been sent to Hermansville in the fall of 1894. He was single at that time and lived in the parlors of the new church. At the close of 1895 Dr. Kirby took a course in medicine, returning to Hermansville in a few years as a physician.

Rev. James Chapman was assigned in September, 1895; Rev.

W. L. Pasmore in September 1898; Rev. J. Bettes in September 1899; Rev. J. R. Sanderson in September 1901 and Rev. W. Roberts in September 1902. On Nov. 9, 1903, during the pastorate of Rev. Roberts, the church was destroyed by fire owing to a defective chimney flue.

Windows Saved

Efforts of C. M. Case, Gilbert Matson and others saved the windows, seats and most of the doors which were used in rebuilding the church. Some had wanted to save the bell, but were dissuaded, owing to the great danger. The bell was paid for by the children of the community — the names of the donors being still preserved on a chart made by W. B. Earle, which hangs in the vestibule of the church. When the bell fell it was found that a six inch hole had been melted out of the crown before it dropped.

The young people of the community were so disappointed over the damaged bell that it was sent back to the foundry in Ohio to be recast, but it never regained its old musical tone.

The new church was built after the same plan of the old building but four feet larger each way. The cost of \$4,869.64. The insurance carried was \$2,000, the net loss \$2,869.64. The new church, however, has a stone foundation with a basement, while the old one had only a wooden foundation. The new church was not completed until January 1905. Rev. F. D. Ling, who succeeded Rev. Roberts, died in 1905 and his year was completed by Rev. Isaac Osborn. Then followed Rev. Sidney D. Eva in 1906; Rev. George F. Hathaway in 1908; Rev. Henry Biddlecombs in 1910; Rev. S. Herbert Berry in 1912. The present pastorage was begun October 1914, during Rev. Berry's pastorage and it was completed in time for the pastor to move in May 1915 with their new baby, Margaret.

Then followed Rev. Joseph M. Pengelly in 1915; Rev. William A. Pryor in 1917; Rev. W. Hubbard in 1921; Rev. William J. Prisk in 1923; Rev. Charles C. Ryan in 1926; Rev. Lloyd Frank Merrell 1927-1930; Rev. Lewis Shanks, 1930-37; Rev. Rex R. Reid, 1937-1940; Rev. Meldon Crawford, 1940-43; Rev. Charles J. Swanson, 1943-47; Rev. Karl J. Hammar, 1947-48; Rev. John A. Larsen, 1948-1957; Rev. Helen L. Royce, 1957-1961; Rev. James B. Lumsden, 1961; Rev. Ira A. Bush of Stephenson-Hermansville.

Ho Sees Victory

By RAY CROMLEY

WASHINGTON — (NEA) — In evaluating what's going on in South Viet Nam, keep in mind that Hanoi's timetable calls for winning the war in 1965.

Viet Cong agents captured over the past 12 months have been consistent in their reports on Ho Chi Minh's timing.

Their tax, military build-up and political organization programs all fit this 1965 schedule.

VC local administrators have been told, for example, that they will be able to cut tax levies on the farmers later this year "when the war is over."

The Communist upper-echelon provincial political-economic-military administrative organization is nearing completion in most of the south, though there are some major loopholes which need to be filled.

The VC first-line military establishment in South Viet Nam has been built up with North Vietnamese units for more than a year. In fact, North Vietnamese companies and battalions, fleshed out with South Vietnamese fillers, have been operating in South Viet Nam for many months, some with Chinese advisers. Don't believe stories that North Viet Nam battalions are just now beginning to appear.

Ho's plans apparently allow for two options: A Communist military take-over, or victory through U. S.-Saigon concessions at the conference table.

Captured Viet Cong political agents, whose instructions have come direct from Hanoi, are confident their victory will be via the conference table.

Ho's plan would require that he unleash some sensational operation before the year ends to convince Saigon, Washington and the West generally that our situation is hopeless.

Ho's sensational operation need not be a Dien Bien Phu. It could be a series of campaigns to chew up selected South Vietnamese armies or a

anyone a favor again as long as I live.

I had to leave town with my folks two weeks ago. This meant I couldn't go to the big DeMolay dance so I asked my Numero Uno, Chris, to please take my cousin Beatrice, who never has a date to anything. (I even let her wear my dress!)

Well, Chris and Beatrice have been like glued together ever since. There must be a side to my cousin Beatrice that I didn't know about. She keeps thanking me for "changing her whole life." My whole life is changed, too. I'm sitting home like an old maid. Chris hasn't said anything but I expect the "nice to have known you" routine any minute.

How can I get my boy friend back? — MISS NUT HEAD

Dear Miss: If cousin Beatrice was able to do such a slick job of getting Chris interested in her he must have been plenty ripe for the picking.

You can't keep a guy locked up and blindfolded. If it hadn't been Beatrice it would have been another gal. Accept the realities and cast again.

Benefit In Sale Of Gas Utility Told To Clubs

The people of Escanaba who are interested in the welfare of their community will vote "yes" June 1 on the proposition to sell the municipal gas system to Michigan Consolidated Gas Co., an official of the firm told Kiwanis and Rotary Club members.

Hugh Daly, executive vice president of Michigan Consolidated, talked to the Kiwanis Club on Monday and to the Rotarians on Tuesday. Forrest Henslee introduced Daly to Kiwanians and the introduction at Rotary Club was by Hubert Shepeck.

Michigan Consolidated Gas Co. has begun the installation of a natural gas pipeline from Menominee to serve the southern Upper Peninsula area, extending eastward to Escanaba, Gladstone and Rapid River.

Escanaba city owns and operates its propane gas distribution system. Michigan Consolidated has offered to purchase it for \$725,000.

The City Council and the Council's Gas Study Committee has endorsed the sale and urged a "yes" vote by the citizens. To carry, there must be a 60 per cent affirmative vote.

The \$725,000 purchase price is favorable to Escanaba but Michigan Consolidated went that high because the city was in a good bargaining position, Daly said. The decision of the Council to recommend a sale of the plant (the only one of its kind municipally operating in Michigan) was based on a realistic examination of the city's position when natural gas becomes available to the area.

Daly said the Council in effect decided that the city could not operate the natural gas distribution system as effectively as a private firm, promote sales aggressively in competition with other fuels, and extend lines to all sections of the city.

The city would also find it necessary to bond to raise the funds necessary to improve the system to distribute natural gas.

Benefits under private ownership were cited by Daly including natural gas rates assured at the same levels as those paid by other customers in the area. Under city ownership and with the need to retire bond debt the rates could be higher in Escanaba than outside the city limits.

Removed also from the responsibility of the city would be the continuing need to insure itself against claims for damages.

Daly said the need in Escanaba is for people to fully recognize the benefits that will come to the community if the utility is sold, and to get out and vote on June 1. Lethargy could result in a small vote and a failure to carry a proposition that is in their best interest, he said.

Former County Nurse Is Dead

Miss Erma Bruemmer, R. N., 64, a resident of Stephenson, died Tuesday in Ferguson Hospital, Newberry.

She was born Dec. 16, 1900, in Gillett, Wis., and was employed as Menominee County Health Nurse from 1940 to 1962 when she retired because of ill health.

She is survived by two brothers, Clarence of Phoenix, Ariz., Louis, Milwaukee, and several nieces and nephews.

Funeral services will be held Friday at 2 p. m. at St. Stephen's Lutheran Church, Stephenson, with the Rev. Ralph Backman officiating. Burial will be in Stephenson Township Cemetery.

The family will receive friends at the Diehm Funeral Home, Stephenson after 2 p. m. Thursday until noon Friday, and at the church before the funeral hour. A prayer service will be held Thursday at 8 p. m.

Buddy Poppies On Sale Friday

The Ladies Auxiliary and members of Post 2992, Veterans of Foreign Wars, will conduct the annual Buddy Poppy sale on Friday, May 14, Mrs. Vern Sturdivant, Auxiliary sales chairman, announced today.

The hours of the sale on Friday will be 9 a. m. to 8:30 p. m. The pick-up station will be at Advanced Electric.

VFW Buddy Poppies are made by the disabled veterans only and are the organization's symbol to the world that "We honor the dead by helping the living," according to Mrs. Sturdivant.

The sale of the poppies is the only direct appeal to the public for aid to the hospitalized and needy veterans. Contributions made by the public in good faith are used in the same good faith by being placed in the Relief Fund to be held in trust for specific purposes only.

Needy servicemen and women or their dependents are given assistance through this fund. Hospitalized veterans are cared for. The widows and orphans of disabled or deceased veterans who reside at the VFW National Home at Eaton Rapids, Mich., are given aid.

By law of the organization, money in the Relief Fund can not be used for general expenses, Mrs. Sturdivant explained. Every dollar donated by the public in the annual sale of the VFW Buddy Poppies will be used for the welfare of the veterans.

All Buddy Poppies sold in Michigan are made by disabled veterans who are residents of the Michigan Veterans Facility located in Grand Rapids.

Mayor Exchange Program Ready

The program for the exchange of mayors between Escanaba and Monroe, one of the features of Michigan Week, has been arranged for Monday, May 17, it is announced by Don Guindon, Escanaba city clerk.

Guindon is chairman of mayor's exchange here, and the chairman at Monroe is Mrs. Mary Daume, the county librarian there.

Escanaba Mayor George Rusch, Mrs. Rusch and family will leave here Saturday afternoon for Monroe. There they will be guests of honor on tours and at luncheons and dinners.

Monroe's Mayor William Agusta and Mrs. Agusta will be greeted here on Monday beginning with a breakfast at the House of Ludington at 8 a. m.

They will be escorted to the City Hall for welcoming ceremony and presentation of the keys to the city at 9:15 a. m. The presentation will be made by City Manager George Harvey. Citizens of Escanaba are asked to join in the welcome and to be at the City Hall at 9:15 o'clock.

Mayor Agusta will be honored at a noon luncheon meeting of Rotary and Kiwanis Clubs at the House of Ludington Monday noon. Gifts representing Escanaba area business and industry will be presented.

A plane ride for the mayor and his wife, tours of the city, and a visit to special displays arranged for Michigan Week by the Escanaba League of Women Voters are other events of the day. The League of Women Voters exhibits will be at the City Hall, the State Office Building and at the Court House.

Mayor William Agusta

men Voters exhibits will be at the City Hall, the State Office Building and at the Court House.

There will be a special ladies' luncheon with Mrs. Agusta the guest of honor Monday noon.

Mayor Agusta was born in Ohio, came to Monroe, Mich., in 1930, and is a securities salesman. He was elected commissioner in 1955 and 1957, served on the Monroe County Board, and is a member of several governmental bodies including Metropolitan Fund, River Basin Watershed Assn., Greater Monroe Chamber of Commerce Economic Development Study Group, and of the Economic Opportunity Committee of the Michigan Municipal League.

New Paper Mill Steam Plant At 'Stique Shown

MANISTIQUE—Field Enterprises, Inc., of Chicago told this community of its faith and confidence in it at a luncheon meeting for 100 civic leaders announcing completion of the first phase of its improvement program at its Manistique Pulp & Paper Co. mill on Tuesday.

Frank Hoholik, president of the MP&P Co., presided at the brief program following the luncheon at The Surf, and Russell Stewart, executive vice president and director of Field Enterprises' Newspaper Division, and George Young, president of Field Enterprises, both of Chicago, spoke for the company.

Introduced were John F. Cross, treasurer, and Melvin G. Barker, manager of research and development, Field Enterprises, and directors of MP&P Co. and Lester V. Denniston, Field Enterprises building consultant.

To Rebuild Machine
"Our hearts have gone out to Manistique and we are very pleased with our operation here," said Stewart. "And we are most gratified to have a Manistique man head the Manistique Pulp & Paper Co. We regard Frank Hoholik as one of the most outstanding manufacturing technicians and admin-

strators in the paper industry. "A year ago here we talked of our plans for rehabilitation of the Manistique mill and you've seen the progress that is underway and the new steam plant. There have been rehabilitation on the exterior and interior and a month ago we contracted for the rebuilding of the (wet end) of the paper machine, so that the paper quality will be vastly improved. We are in the program and have invested \$2 million, which demonstrates our faith in the Manistique Pulp & Paper Co. and in Manistique and the Upper Peninsula."

Stewart introduced George Young as the head of Field Enterprises who has planned and supported planning for the development of the mill that is this community's chief industry.

"A year ago," said Young "we announced our long range plans for improvement of the mill and we're right in the middle of the program and everything is going along very well. These are the people who are making the plans a reality."

"Look So Bright"
"They have changed the skyline of Manistique a bit (with the 7-story high new steam plant) and the next development will not be so noticeable but it will be even more significant. It will not only make manufacturing better, but it will adapt products to new needs."

"Things look so bright that I think nothing can stop us. "This gathering has been described as honoring the officials of Field Enterprises and Manistique Pulp & Paper Co. but really it honors you and this area. We are glad we got involved in this magnificent mill and this part of the country."

Dr. Claud Bosworth, Northern Michigan University vice president-public services, said "Frank Hoholik cuts a very wide swath in the Upper Peninsula. If we have had growth here it is because we tried to implement the American idea; to sit down with leaders like yourselves and make the American dream come true."

Jean Worth, editor of the Escanaba Daily Press, said that Escanaba, a neighboring community which is also a paper mill city and knowledgeable about the difficulties and importance of the industry, is greatly impressed and pleased with the progress of Manistique under Field Enterprises' ownership of the paper mill here.

Civic Leader
"Frank Hoholik," said Worth "could not be as good as he is if he were not a civic leader as well as a leader of industry. His devotion to Manistique and to the Upper Peninsula have been outstanding and have earned great respect everywhere."

The guests of the company visited the mill after the luncheon and were impressed with the new steam plant, first major phase of the mill rehabilitation program. It is of steel with tan finish to match the brickwork of the mill office building and with green plastic panels for lighting and it stand 7 stories high to accommodate the great boiler which rises to that height to supply all the steam needs of the mill.

From the nearby dock of Girvin Coal & Dock Co. on the Manistique River comes the coal that fuels the automatic burners. The trucks dump their loads on a grating from which it is hopped up 7 stories to an 80-ton storage hopper from which it feeds down into the burners. The same trucks which bring the coal take away the ashes.

Paper Reprocessed
The controls of the steam plant are automatic and it could run without a staff, but it is staffed. The efficiency of the plant over the old one is substantial and much less coal is delivered to fuel the Wicks boiler, which has a capacity of 90,000 pounds of steam an hour.

It will replace the mill's old five boilers, which will be removed. Also surplus is the tall smokestack of the mill. The new stack protrudes its steel barrel only 20 feet from the boiler house roof and vents a smoke so light in color that it is hardly noticeable after its treatment through soot and fly ash collectors.

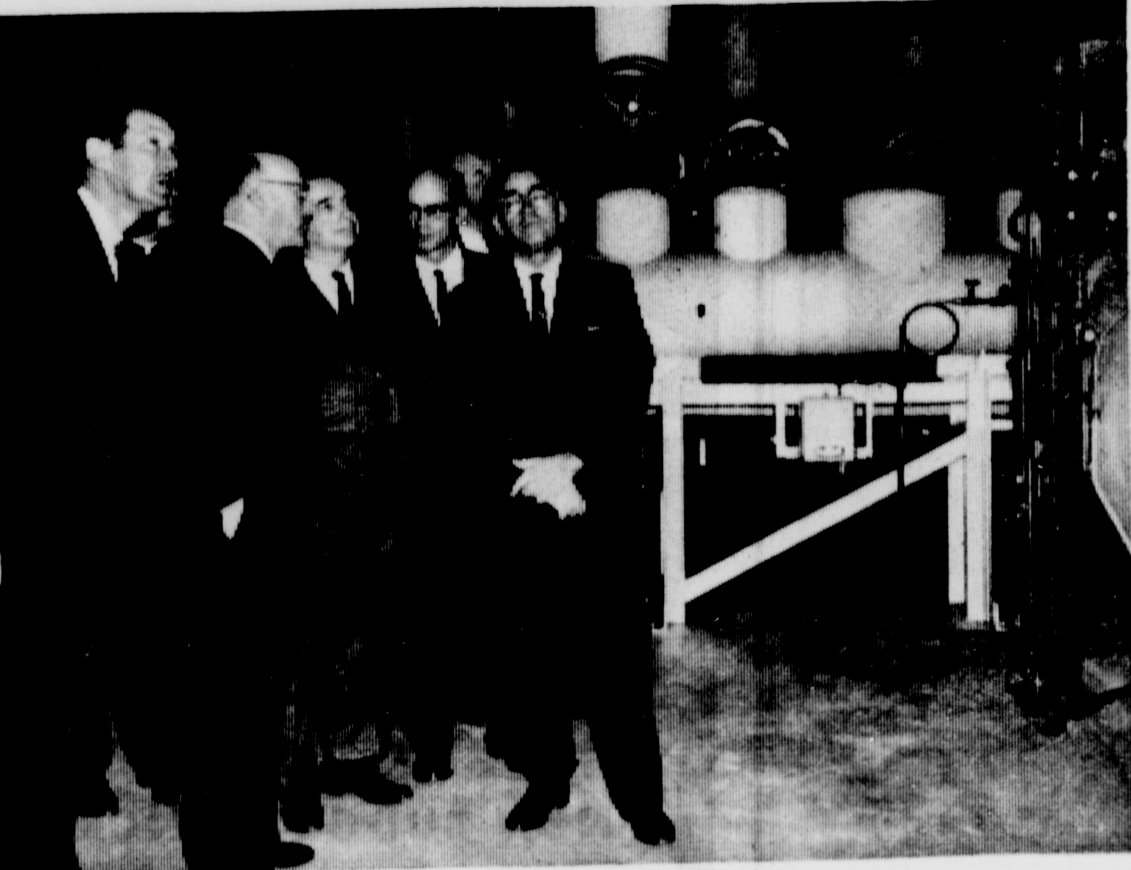

The mill uses Upper Peninsula pulpwood and waste paper in the manufacture of its pulps. It is a groundwood mill and can use the power generated by its water wheels turned by the rushing Manistique River to generate electricity or directly to power the big grinding stones which reduce the pulpwood to fibers for paper making.

One of the places of prime interest to the guests was the part of the plant which recycles the waste paper, removing the ink by a flotation process.

FIELD ENTERPRISES, Inc., of Chicago showed U.P. civic leaders the new steam plant of its Manistique Pulp & Paper Co. mill Tuesday, first phase of a mill rehabilitation project, after a luncheon at The Surf. istique Pulp & Paper Co.; Mrs. Lois Ott, MP&P Co. assistant secretary-treasurer; Russell Stewart, director, Newspaper Division, Field Enterprises; Lester Denniston, Field Enterprises building consultant; John F. Cross, Field Enterprises treasurer; and George Young, Field Enterprises president. (Daily Press Photos by Bernard Schultz)

FIRST UNIT completed in Field Enterprises' multi-million dollar rehabilitation of its Manistique Pulp & Paper Co. mill is the new steam plant shown Tuesday to a group of company guests. Here is one of the four party units, including, from left; William Miller, Marquette, executive director of Operation Action-U.P.; Chief Engineer Maurice Reid; Clair M. Hekhuis, director of public relations, Northern Michigan University, Marquette; and Dr. Claud Bosworth, vice president-public services, of the University.

Escanaba Youth Killed In Crash

James Allen Congleton, 19, of Escanaba, was killed almost instantly in a collision of two cars on U. S. Highway 60 near Bethany, Mo., on Tuesday.

He is the son of Mrs. Dollie Congleton, 311½ S. 16th St., and William Congleton, Milwaukee. He was born in Escanaba and attended high school here.

The young man had been in Milwaukee, had left there and was recently married. His wife, Catherine, 19, was injured in the crash and is hospitalized.

The Missouri highway patrol reported that Mr. and Mrs. Congleton were driving south when another car veered into the wrong lane, striking the Congleton car, which turned over several times, throwing both occupants out.

Surviving besides his parents and wife are a brother, Joseph and a sister, Carol, and his grandmother, Mrs. Emma L. Congleton, all of Escanaba.

Funeral arrangements are not yet completed.

Board Concerned Over Candidates; Only One Listed

The Escanaba Area Board of Education, deeply concerned over the absence of candidates for the June 14 school election, issued an appeal Monday for citizens to stand up to their public responsibility.

With only four days remaining to file nominating petitions as candidates for the Board of Education, two terms still do not have a single petitioner.

Deadline for filing petitions is 4 p. m. Saturday.

"The Board is certainly very concerned about the fact that we have nobody running for these posts," said Dr. Vernon Johnson, president of the board. "This is real serious. The administration of our public school system is a community responsibility and we hope that before Saturday a number of qualified candidates came forward."

One Candidate
The only person to file a petition to date is Roland Collins, 1012 Washington Ave. Collins is seeking election to the remaining three-years of the term he was appointed to fill when W. John Anthony resigned last fall.

The four-year terms of Dr. William Hemes and Jack Manning also expire. Both Hemes and Manning have announced that they do not plan to seek reelection.

Candidates for election to the Board of Education must be qualified electors of the district and be owners of property assessed for taxes. Nominating petitions which are available at the School Administration Building from 8 a. m. to 4:30 p. m. daily, must be filed by 4 p. m. Saturday.

In event that no persons file for election by Saturday, procedure for filling the two vacancies is unclear. The Board has certain appointive persons. A write-in campaign would also be a possibility.

Add Scholarships
In regular business, the Board approved the addition of three Anna C. Norton scholarships, one each in Class A, B and C, to its 1965 scholarship program. The action was made possible by a surplus of funds available for scholarship distribution from the Anna C. Norton fund.

Rotarians Plan Attendance At District Meet

A group of Rotarians representing the Rotary Club of Escanaba are making preparations to attend the District Conference to be held at Eagle River, Wis., on Friday and Saturday.

The group will include Robert Haack, Escanaba Rotary Club president, and Mrs. Haack; John A. Lemmer, past district governor, and Mrs. Lemmer; Secretary Arthur Westby and Mrs. Westby; Art Moberg, Don Yost and Isadore Stein.

At the conference the Escanaba club will place the names of two young men as its candidates for Rotary Foundation Fellowships, which provide for a year of study in another country.

Named the Escanaba club candidates at the Rotary meeting here Tuesday noon were Mickey Moses, now attending the University of Iowa, and Rick Austad at the University of Michigan. Both are graduates of Escanaba High School.

They will be in competition with the candidates from 36 other clubs in the Rotary District for the Fellowship grant.

Briefly Told

Escanaba police have issued traffic court summonses to Richard D. Konkel, 18, Bark River, and to Richard J. McDermott, 19, also of Bark River, both for speeding.

Michigan Bell Telephone Co. reported to Escanaba police that three of its telephone booths in the city were damaged maliciously. Police are investigating.

The fourth in a series of seminars on "Preparing for Marriage" sponsored by the Newman Club of Bay de Noc Community College will be held at 7:30 tonight in the college student center. Topics tonight are "Family Planning Today," and "Changing Attitudes of the Churches." Rev. David Lelievre, director of Catholic Social Services, Marquette, and Dr. Donald Conley, Marquette obstetrician, will lead discussion.

The Silver Spur Saddle Club's May meeting will be held at the Kipling Township Hall on Thursday, May 13, at 7:30 p. m. Two films on horses "American Cowboy" and "Training the Lippizan" will be shown. The latter film was made by Mrs. Don Pearson of Bark River, a member of the club, while she was visiting in Germany. Interested persons are invited to attend.

Micensky Named Area Principal; Johnson Is Aide

Robert J. Micensky, principal of the Escanaba Area Junior High School since 1959, Monday was elevated to principal of the Area Senior High School.

Harold Johnson, Escanaba basketball coach and athletic director, was appointed assistant principal.

The action was taken by the Board of Education at their regular meeting Monday night at the School Administration Building. Both appointments are effective July 1 and came by unanimous vote of the Board's seven members.

Micensky, 41, has been in the Escanaba school system as a teacher and administrator since 1952. He will replace Stephen C. Baltic, current principal, who will take over as business manager for the school system in July.

No successor to the now vacant Junior High School post was named.

To Remain Coach
"I'm proud to be appointed to the job," Micensky said when contacted this morning. "I've never worked in the new high school, but I'm certainly looking forward to the opportunity."

Johnson, one of the most successful basketball coaches in Escanaba history with over 100 victories to his credit since taking the position in 1956, will remain as basketball coach.

The responsibilities of athletic director will be included in the sphere of the assistant principal's post. Johnson, however, will step down as head baseball coach and as an assistant football coach next year.

Micensky, a native of Virginia, Minn., graduated from Iron Mountain high school in 1943 and received his Bachelor of Arts degree from Northern Michigan University in 1950. He received his Master's degree in secondary administration and supervision from the University of Michigan in 1953.

Began As Teacher
Micensky joined the Escanaba school system in 1952 as a classroom teacher and taught various courses in English and social studies in grades seven through 12 before he was named principal of the junior high school in 1959.

He resides at 1601 7th Ave. S., with his wife and three children.

Johnson, 40, is a native of Felch and received his Bachelor's degree from Michigan State University in 1950. He coached basketball for six years at Felch and Lake Odes-

Library Will Be Open Monday Night In Summer

Carnegie Public Library trustees meeting Tuesday night set the hours for summer service beginning May 31 at 9 to 9 on Mondays, 9 to 6 on other weekdays and the library will be closed on Saturdays. The schedule will continue to the week before Labor Day.

The library has received \$329.98 in final payment of state aid for the year, after previous receipt of \$461.73.

Six high school students observers from government and English classes attended the session.

The library has 34,350 books, a gain of 162 for the month. Circulation of non-fiction books jumped to 65 per cent.

Parents are requested to make a special effort to register their children during this day, school officials asked. When doing so, parents are reminded that they should have any pertinent medical records, and birthdate of the child, and their brothers and sisters, available when they register.

sa before coming to Escanaba in 1956.

During Johnson's coaching career at Escanaba the Eskymos have won four Upper Peninsula basketball titles, one in class B and three in Class A. The Eskymos are current Class A champions in the U. P.

He resides with his wife and family at 630 S. 16th St.

Besides the administrative changes, the Board approved contracts for four teachers for the 1965-66 school year.

Former Escanaban John Connelly, currently football coach and athletic director at Bloomington, Mich., high school, was hired to teach government and assist in the football program; Karen Bennett, Northern Michigan University graduate who is working toward a Master's degree at Wayne State, will teach junior high art; Priscilla West, who will graduate from Albion College in June, will teach high school home economics; and Mrs. Norma White, currently employed by the school system as a combination orthopedic and kindergarten teacher, will take over second grade at Webster school next fall.

Pre-School Project Inquiries Mailed

Notices were mailed to known parents of pre-kindergarten children recently by the Bark River-Harris Schools. Registration will be held on Friday, May 14, from 9 until 4 in the kindergarten room. Regular kindergarten classes have been dismissed for the day. Applications for those parents wishing to participate in Project Head Start will also be available.

Parents are requested to make a special effort to register their children during this day, school officials asked. When doing so, parents are reminded that they should have any pertinent medical records, and birthdate of the child, and their brothers and sisters, available when they register.

Worms Still Health Threat For Children

Despite modern improvements in hygiene and sanitation, intestinal parasites remain a threat to children, says Dr. Mary L. Cretens of the Delta-Menominee Health Department. Although more prevalent in the South among children in areas with warm, moist climates, parasites are by no means confined to these regions.

Pinworms, which are the most common, can thrive in all climates and are found worldwide. Their eggs are easily spread by contaminated fingers of one child to another in families and children's groups. Because of ease of spread, it generally becomes important to treat entire families.

Giant roundworms are also resistant to wide variations in temperature and infect some 3,000,000 people in the United

States. Trichinosis, caused by the trichinella parasite from undercooked pork, is also widespread and infects more than 15 per cent of the people in the United States. While younger children are affected less often, infection of young teen-agers is not infrequent.

Although intestinal worm infections are frequently mild and may even pass unnoticed, the more severe infections can be serious and even fatal. Children are more susceptible because of their greater exposure to infection and lack of immunity or tolerance to many of the parasites.

Careful attention to personal hygiene, good eating habits and proper sanitation are important for prevention. Hand-washing after toilet and before meals is essential. Pork and pork products such as sausage should be cooked thoroughly. If an infection is suspected, do not delay in obtaining medical aid, suggests Dr. Cretens.

Early Hunt For Teal Would Nip Migration

By KENNETH S. LOWE
Upper Peninsula waterfowl hunters have long complained—and not without justification—that the duck season opens too late in this region. During the past several years, the season has begun during the early part of October throughout Michigan.

But, Upper Peninsula hunters point out, a lot of local ducks already have migrated south long before the first of October. Now, a study undertaken by Roland E. Berry, a Kingsford bird watcher, has produced data supporting the hunters' point of view. Berry conducted a waterfowl census on Crystal Lake in Iron Mountain during the fall migration in 1962 and the spring and fall migrations in 1963. He reports his findings in the current issue of the Jack-Pine Warbler, a magazine published by the Michigan Audubon Society.

Concerning the 1962 fall migration, Berry said: "The first notable deviation (in numbers of waterfowl observed on Crystal Lake) was the rise to 116 (birds) on Aug. 25. If this is taken as the beginning of the migration, then the fall migration in 1962 extended from Aug. 25 to Nov. 9 (76 days). During this period, there were four distinct peaks: On Aug. 31, Sept. 9, Oct. 4 and Oct. 18." Note that Berry found that the migration started Aug. 25—long before the October opening date of the duck season—and that two peaks occurred—Aug. 31 and Sept. 9—well before the start of the hunting season.

Similar findings were reported for the 1963 fall migration: "The peak recorded on Aug. 22 has been interpreted as the beginning of the migration. From that date there was a slow general rise in population until about Oct. 15, when a general decline in numbers began. An abrupt decline occurred on Oct. 30." Here again, the migration began long before the hunting season opened, in this case on Aug. 22.

Berry's studies are interesting in light of the early teal season that has been proposed in Michigan this year. The Conservation Department's Game Division is recommending that the season extend from Sept. 16 to 24. This will mark the first time in many years that Upper Peninsula hunters will have an opportunity to legally take waterfowl in September.

Berry found that blue-winged teal were the last of the common waterfowl species to arrive in the spring of 1963, being first observed on April 20. But they were the first to leave in the fall. The last blue-winged teal he saw in the fall of 1963 was on Sept. 3—almost two weeks before the special early teal season is planned to start.

Mother-Daughter Banquet Held At Central

The annual Mother and Daughter banquet held at Central Methodist Church, Monday May 10, was a delightful affair with 136 mothers and daughters attending.

Tables were decorated in blue and white with blue hearts adorning the geranium plants centering each table — all in keeping with the theme of "Hearts in Tune."

Mrs. Roy Ness, president of the Evening Circle welcomed the mothers and daughters and the invocation was given by Mrs. Robert Selberg. After enjoying group singing the tribute to the Mothers was given by Miss Debbie Pariso, and to the daughters by her mother, Mrs. Richard Pariso. A piano-organ duet was played by Suzanne Cathcart and Mrs. Harriet Carlson. Miss Paula Jean Anderson sang "Mother." A humorous reading was read by Marietta Carlson. Little Cindy Jo Chapla sang two songs, "Down in the Valley" and "Rocking Alone in an Old Rocking Chair" and played her own accompaniment on her guitar.

A Mother's Day acrostic was given by Wendy Allardice, Judy Cooper, Ellen Gustafson, Mary Gustafson, Linda Sunila, and Susan TenHaken. Mrs. Francis Bolm showed a film of the Centennial Mother and Daughter banquet and Betty Stonediff sang the final solo "How Great Thou Art."

Roses were presented to the following: oldest mother present, Mrs. Lene Peterson, who is 84; youngest mothers present, Mrs. William Biscomb and Mrs. Norman Remington; mother with the most daughters present, Mrs. Don Allardice; youngest daughter present, Tammy Swanson. Mrs. Malvina Cotnoir received the rose for being the great grandmother present along with 3 other generations of her family.

B. & P. W. Club's New President Is Mrs. Nystrom

Mrs. Caroline Nystrom was elected president of the Escanaba Business and Professional Women's Club at a meeting held at the Sherman Hotel last evening. Other officers elected are: Mrs. Florence Dufresne, first vice president; Mrs. Pearl Witte, second vice president; Mrs. Emily Williams, recording secretary; Miss Marian Oliver, corresponding secretary; and Miss Mary Newton, treasurer.

Elected to the nominating committee for 1965-66 were Mrs. Jean Kasun, Mrs. Myrtle Bertolaet and Judge Marie Peters. Mrs. Nancy Petry and Mrs. Bertolaet were appointed to the auditing committee.

A report on the recent dessert card party held at Marco's by the club, proceeds of which will go into the club's charity fund, was given by Mrs. Bertolaet, chairman. She reported the event an outstanding success. Prizes at the card party were lint dusters made by the Junior Achievement Corporation and she reported that these were well received.

Mrs. Kasun, Mrs. Nystrom and Mrs. Witte will attend the state convention of the Michigan Federation at the Jack Tar Hotel, Lansing, May 21 and 22. Mrs. Kasun, retiring president, was presented with a B & P W pin and past president's guard, and was commended for an outstanding two years as president of the Escanaba club. Mrs. Edith Anderson, of the Delona Restaurant, was a guest at the meeting.

and Thomas Safford. Ensign's Men's Bowling team has donated two trophies to the Rifle Club. The trophies will be awarded to the best marksmen.

Ev. Covenant Group Presents Play In Racine

Six high school students from the Evangelical Covenant Church of Escanaba accompanied their pastor, the Rev. Everett Wilson, to Racine, Wis., Sunday afternoon. The purpose of the trip was to present their one-act play, "The Picture," at Faith Evangelical Covenant Church of Racine. The play was written and directed by Pastor Wilson and was first presented in Escanaba last summer.

Members of the cast were Kerry Anderson, Karinlee Dahlgren, Larry Branstrom, Bonnie Branstrom and Ronald Kern. Assistant director was Kathy Sundquist.

The public schools of Escanaba and Gladstone excused the young people from Monday classes so that they could make the trip.

The work of this group in the field of religious drama was featured in a March issue of the "Covenant Companion," the official organ of the denomination, and a picture story about the play and the task of religious drama in general will appear this summer in "Covenant Youth Today," the denominational young people's paper.

Fashion Notes

NEW NAVY INVASION
Navy with touches of white organdy or lace will be one of the highpoints of both the spring and summer season. It turns up everywhere from dressy to sportswear.

SAILORS ARE BACK
Top among spring millinery designs are large-brimmed sailors with rounded shallow crowns and a new silhouette inspired by a nun's coif.

SCARF ILLUSIONS
Scarves dress up and change the appearance of any simple dress. One way to add variety is to wind the scarf through the strands of a necklace.

Women's Activities

Affiliate 65 Names Officers For New Year

Affiliate 65 of the Michigan Cosmetologists Association elected officers for the year '65-'66 at a monthly meeting held at the Sherman Hotel.

They are: president, Eva Caron; vice president, Ralph Peterson, recording secretary, Marji Sviland; financial secretary, Delores Malnor; treasurer, Helen Gunkel; reporter and historian, Muriel Fry.

Plans were made for the new year program book. A discussion was held on pending legislation and all members were urged to contact their representatives in Lansing. It was agreed that all unlicensed beauty shops will be reported to the legislative committee of District 1, M. C. A. Inc., at the district meeting at Sault Ste. Marie.

Plan To Register Kindergartners At Flat Rock

Flat Rock kindergarten registration for 1965-66 will take place on Friday, May 14. The regular morning and afternoon classes for Kindergarten will not meet on Friday.

Mrs. Florence Dickie, kindergarten teacher, will meet with mothers from 8:30 a. m. to 11:45 a. m. and from 12:30 p. m. to 3 p. m. for initial enrollment kindergarten pupils.

Mothers are asked to bring along a copy of the child's birth certificate, and also a record of immunization as required by law.

In order to qualify for enrollment the child will have to be five years old by Dec. 1, 1965.

Registration At Garden School

GARDEN—Kindergarten registration has been scheduled for the Garden School May 13 and 14. Parents entering children in kindergarten must present birth certificates to have them accepted and the children must be five years old by Dec. 1. Complete physical examinations and proof of protection against smallpox, diphtheria, whooping cough, tetanus and polio are required before the child enters school in September. Registration will be in charge of Mrs. Roland Boudreau in the Kindergarten room anytime during school hours on the two days.

The third annual convention of the Wisconsin-Upper Michigan Synod of the Lutheran Church in America will be held in Marquette, beginning Monday evening, May 17. The sessions will be concluded Thursday, (May 20). Messiah Lutheran Church in Marquette will be the host church, with the sessions to be held on the campus of Northern Michigan University.

Attending from Christ the King Lutheran Church in Escanaba will be Mrs. Clarence Anderson. Over 450 pastors and lay delegates will be in attendance.

Dr. Theodore E. Matson, president of the Wisconsin-Upper Michigan Synod, has indicated that the President of the Lutheran Church in America, Dr. Franklin Clark Fry, will represent the LCA at this Convention. Dr. Fry will make two presentations to the delegates on the State of the Church and will also be the featured speaker at an Ecumenical Rally Tuesday evening, May 18. The public is invited to the Tuesday evening rally.

The Wisconsin-Upper Michigan Synod is one of the 31 constituent Synods of the Lutheran Church in America which was formed in 1962 by a merger of four Lutheran bodies. The predecessor units were the Augustana Lutheran Church, the American Evangelical Lutheran Church, the Suomi Synod, and the United Lutheran Church in America. There are 255 congregations in the Synod located in Wisconsin and the Upper Peninsula of Michigan. Over 150,000 baptized members are included in the member congregations.

with Ray Crandall

Bill Hermansen, former Menominee High School athlete, notched his first mound victory in professional baseball this week as a relief pitcher for Wellsville of the Class A New York-Pennsylvania League. . . . Hermansen inked a contract with the Boston Red Sox last year following the state American Legion tournament in Menominee.

Officials of the regional track and field meet to be staged here Saturday have made special plans to allow more fans to witness the shot put event than would normally be able to see it. . . . The shot put will be run off in the afternoon along with the finals in the running events, rather than in the morning with the other field competition. . . . Since Bill Sarnowski and Jim Hansen, to say nothing of Steve Johnson, have entered the picture, the shot put has become a crowd-catcher at meets in which the Eskymos compete.

Two of the top track athletes in the Upper Peninsula sat out the Menominee Range Conference meet at Kingsford. . . . Dick McCarthy of Kingsford and Jim Johnson of Iron River were sidelined with injuries as the Flivvers piled up 77 1/2 points to capture the conference crown with ease. . . . Iron River was runnerup with 54. . . . Three Range records were set as Dick McCarthy of Kingsford vaulted 12 feet 6 inches, the Kingsford mile relay team was clocked in 3:39.2 and Jeff Gill stepped the 440 yard dash in 53.3 seconds.

Pickford reached a new plateau in track circles by amassing an amazing 122 points while winning the Eastern Upper Peninsula Conference meet. . . . DeTour was a distant runnerup with 35 points. . . . The Panthers scored 11 firsts and broke one meet record in spite of a soggy track. . . . The Pickford 880 relay team of Bruce Reamer, Roger Hewer, Chuck Bennin and Bob Huyek hit a 1:35.5 time to better the record of 1:36.1 which the Panthers set last spring. . . . One of the few events the Panthers didn't win was the high jump where Dan Dutcher of Cedarville reached 6 feet.

Women Keglers Get New Leader At Manistique

MANISTIQUE—Ruth Francisco of Newberry is the new leader in the singles division of the Upper Peninsula Women's bowling tournament being rolled at the Lakeview Lanes with a 628 series after the ninth weekend of the tourney.

Direct Hit By Killebrew Clips Angel Ace's Wings

By The Associated Press

Dean Chance had been taken for a sitting duck twice before this spring but it took a direct hit from Harmon Killebrew to clip the Angel's wings.

Minnesota's Killebrew rocketed a drive off Chance's shin Tuesday night in the ninth inning and Tony Oliva slid home with the run that gave the Twins a 3-2 victory over Los Angeles and snapped the Angel ace's winning streak at three games.

Killebrew's shot probably hurt less — and was more painful — than the line drives by Willie Mays and Vic Roznovsky that temporarily knocked Chance out of action during spring training.

But neither injury proved serious. Nor did it bruise Chance's won-lost record. The first-place Twins did. The loss left Dean at 3-1 and his earned-run average soared from 2.92 to 2.93.

St. Louis beat the New York Mets 4-3; Pittsburgh shaded Milwaukee by the same score; Houston tripped the Los Angeles Dodgers 2-1; San Francisco

blanked the Cubs 3-0, and Cincinnati mauled Philadelphia 9-1 in National League play.

Chance gave up only two hits until the ninth but both were homers — by Jerry Kindall in the first and Oliva in the sixth. The Angels, meanwhile, had knocked out Minnesota starter Dick Stigman in the first inning on a leadoff homer by Jose Cardenal, a single by Willie Smith and two walks. Smith's two-out triple and an error by reliever Dave Boswell had produced another LA run in the fifth.

Kindall drew a walk leading off the Twins ninth and Cesar Tovar ran for him. Oliva ripped

a double into the right-field corner but Tovar, who was to be optioned to Denver after the game, was thrown out at the plate.

Oliva, who reached third on the play, broke for home on Killebrew's shot off Chance's leg. Chance ran the ball down but Oliva slid across safely as the pitcher's hurried throw got away from catcher Bob Rodgers.

Horton's two-out single in the ninth scored Don Wert and Don Demeter, capping the Tigers' comeback after Willie Kirkland's three-run homer and run-scoring triple had helped the

Senators build a 6-0 bulge.

Demeter's three-run double and Horton's solo homer keyed a five-run Detroit uprising in the seventh.

The victory went to relief specialist Larry Sherry, 2-0, who blanked Washington on one hit over the last two innings. Sherry has allowed only one run in 25 1-3 innings this season.

Baltimore, shut out on one hit by Ralph Terry for seven innings, knocked out the Cleveland right-hander in the eighth, tied the score in the ninth and won in the 11th on a single by Boog Powell, a hit batsman and Hall's ground single to right.

New York's Edwards, acquired recently from Kansas City, and Mantle homered while Baker, picked up Monday in a trade with Cleveland, broke into the lineup with two hits as the Yankees struck for four runs in the fourth inning and held off the Red Sox behind right-hander Mel Stottlemyre.

Esky Wins Track Meet

IRON MOUNTAIN—Displaying the individual power and team depth that made them the Great Northern Conference champs, the Escanaba Eskymos crushed Iron Mountain 74-35 in a dual track meet here Tuesday.

Buster Mathis To Turn Pro

GRAND RAPIDS (AP) — Mountainous Buster Mathis, the 300-pound heavyweight boxer who was felled from a 1964 Olympics team birth by a hand injury, announced today that he is turning professional.

The 21-year-old Grand Rapids sign painter was accompanied at his news conference by Al Bachman of Chappaqua, N.Y., who is to be his manager.

Mathis is scheduled to make his professional debut in a four-round preliminary bout at Montreal in mid-June.

Attorney Jack Clary, serving as legal counsel for Mathis, said an eastern syndicate will own the young giant's services with an option for Grand Rapids interests to obtain a part of the contract.

Mathis rumbled to prominence here in Golden Gloves action. He won the state novice heavyweight championship in 1962, took the national AAU heavyweight crown in 1964, qualified for the Olympic trials and won the heavyweight post with the United States team.

In training for the Olympics, however, he broke his right hand in a workout with Joe Frazier of Philadelphia who replaced Mathis on the team and brought home a gold medal from Tokyo.

Redskins Win Baseball Title In Big Seven

HERMANVILLE — Coach Don Hill's Hermanville Redskins captured the Big Seven Conference baseball crown for the second straight year when they whipped Alpha, 10-1, yesterday for their sixth straight victory.

Dennis McClure fashioned a nifty two-hitter, fanning 13 batsmen and walking one. Randy Fochesato whacked two doubles and a single and Ron Povolo contributed two singles as the Redskins collected nine hits off two Alpha pitchers.

Sparma Seeking Initial Victory

WASHINGTON (AP) — Right-hander Joe Sparma, scheduled to take the mound for the Detroit Tigers tonight against the Washington Senators, will be trying for his first victory while attempting to put the Tigers over the .500 mark.

With a last-minute 7-6 victory over the Senators Tuesday night the Tigers are in sixth place in the American League with an 11-11 record.

The Tigers went into the ninth inning trailing 6-5. Don Wert walked to lead off the two-run inning and Don Demeter followed with a single to left. Al Kaline's sacrifice advanced both runners and Willie Horton's single to left field scored Wert and Demeter with the tying and winning run.

Washington starter Frank Kreutzer held on to a one-hitter for six innings but was tagged for five runs on three hits in the Tiger seventh.

Dick McAuliffe started the rally with a single. Wert walked and an error on George Smith's grounder to second loaded the bases. Demeter doubled, scoring three and came home on Horton's fourth home run of the year.

The Nats opened the scoring in the second on Willie Kirkland's triple following a walk. Detroit-raised Kirkland added three more in the Senator fifth when his second homer of the

year scored Bob Chance and Don Lock.

Larry Sherry got his second win against no losses and Ron Kline took the loss for a 1-1 record.

Tiger interim-manager Bob Swift cut the squad to the required 25 after the game. Right-hander Julio Navarro, first baseman Bill Roman and catcher John Sullivan were optioned to the Syracuse farm club.

Congregational Banquet Draws Record Crowd

RAPID RIVER — Rapid River Congregational Church's second annual mother and daughter banquet had 100 in attendance. Yellow and white streamers decorated the tables which were centered by spring flowers. Table decorations were made by Mrs. Charlotte Rushford, Mrs. Esther Caswell and Mrs. Robert Olson.

The evening affair began with the invocation offered by the Rev. Otto Steen. The banquet style meal was served by the church's high school age boys, Douglas Moss, Fred Wilbee, Charles Bowen, Bill Wickham, Tom Nelson, Steve Pyke, Robert Anderson and Tom Safford.

Following the meal, Robert Olson, program chairman, introduced the Bay de Noc Barbershop Chorus. The chorus, represented by 16 members sang four selections: "Dear Old Girl," "I Believe," "Summer-time" and "Baby Your Mother." A special solo, "Galloway Bay," was sung by the chorus' Irish tenor, Ed O'Leary. Paul Cowen, Gladstone Schools' music director, directs the Barbershoppers.

Wallace Cameron, master of ceremonies, took command of the program by introducing a humorous impromptu skit which involved members of the audience. The skit's cast was Georgejean Miller, Mary Slough, Connie Lundin, Mrs. William Aker, Mrs. Ossie Hansen, Mrs. George Wilbee, Mrs. Norman Slough, Mrs. Thomas Safford, Tom Safford, Mrs. Gordon Nelson, Mary Ann Lagerquist and E. Stanley Pyke.

Cameron demonstrated his popular homemade orchestra and then selected individuals from the audience to perform on them. Orchestra members were Al Bond, Mrs. Lavina Moss, Mrs. Walden Johnson Sr., Carol Bowen, Steve Pyke, Mrs. Walter Peters, director, Rev. Steen and piano accompanist, Don Grenfell.

Awards Presented

The entertaining program was completed with awards presented to the oldest mother, Mrs. Harriet Scott, Rapid River; mother of youngest baby, Mrs. Charles Larsen, Rapid River; mother of most daughters (7), Mrs. Gladys Taylor, Rockford, Ill.; and mother of youngest daughter, Mrs. John Broeders, Rapid River. The gifts presented to the mothers were gem stone jewelry made by Charles Bowen. The enjoyable evening was closed with Rev. Steen's benediction.

The affair's general chairman was Ray LaBumbar, assisted by Harvey Deneau, E. Stanley Pyke, Al Bond, Robert Olson, Stanley Rushford, Gordon Nelson, Lowell Columb, Mrs. Ray LaBumbar, and Mrs. Grace Burnett.

2. In Memoriam

Berish

In loving memory of our dear wife and mother, Mrs. Nick Berish, who passed away 18 years ago today, May 12, 1947.

Life does not seem the same since you were called away. The blow was hard, the shock severe.

Our hearts still ache with pain. Our eyes shed many a tear. God only knows how we miss you. At the end of these sad years Time cannot heal our aching hearts.

From our memory dear, The form and face we loved so well. We dwell forever there. Only those who lost can tell. Of the grief that is born in silence. For the one we loved so well. You are not forgotten, Mother dear.

Nor will you ever be. While life and memory last. We will remember thee. In our home is a vacant place. And how happy we would be. If you were with us too.

Industrial Land May Go To City

The Manistique City Council Monday night heard a report from Carl Jarvey of the Michigan State Tax Commission and Patrick LaFave, city assessor, on a plan to obtain the old dimension plant site for municipal use for \$1.

The procedure involves a municipal land use policy of the Conservation department lands division. Cleanup of the area for picnicking use and holding for development were cited as possible uses.

Council study of the proposals is scheduled.

Charles Varnum asked about placing municipal employees on a pay schedule with yearly step increases, based on a merit plan. This would alleviate loss of some employees, as is now happening, he indicated.

Leo DeMars asked about placing gates and establishing hours for use of the city dumps. Films on equipment available for sanitary landfill work were shown. Under this plan, a trench is dug and refuse placed in it is covered regularly. Low areas can be filled using this procedure of leveling and covering. The films were shown as part of the presentation of various companies showing snow removal and other equipment to the city. A unit was brought for demonstration Tuesday.

Mayor Merwin White asked about dog control, noting a mailman had been bitten twice by dogs running at large. The manager reported two men had been working at dog control. The mayor also asked about height canopies proposed for store fronts in the downtown renovation scheduled. Representatives of a Milwaukee firm are scheduled to be here shortly, the manager reported.

Norman Jahn appeared to ask repeal of an ordinance governing and licensing eating and drinking places as it affects taverns, as they are controlled by the Michigan Liquor Commission. No action was taken.
